Consider the Benefits

- Just a few kms from the City, and accessible by trail, consider the additional tourism potential to the business community.
- Consider the added recreational value to the residents
- Consider the draw from the people of the region because of the public trail corridor

Help with development and
maintenance may be available
from local and regional
sources,

but we need your support

An Historic Monument for the Community

- We are asking for your consideration to “invest” in saving the structure and the public trail corridor for the future
