## Some Questions About the NO plan for a corridor that is already being used!

- Do you know what it is?
- Does it provide for safety, signage and liability on public land?
- Does it indicate how significant risks could be handled?
- Does it describe the consequences of a missed opportunity for the future?
- Does it provide a corridor for wildlife?
- Does it provide this type of managed recreational opportunity for anyone other than adjacent land owners?
- Does it have the support of elected officials?
- How will it provide revenue from an abandoned line?
- Who exactly will gain immediate benefit?
- Does it give you any **vision** of the future for your family and future generations

## What do **YOU** know about the **YES** plan?

Public trail supporters have laid out their intentions and plans to the public

The plan has been openly debated, reviewed and improved upon.

Municipalities are the final decision makers in the YES plan

We will work together to see the plan become a trail for everyone

A YES vote provides a controlled, safe, maintained and organized multi-use corridor
