

VOTE YES FOR A TRAIL PLAN (SAME FONT AS “RAILS TO TRAILS FACTS”)

stakeholder coordination Immediate municipal action should be designed to bring together adjacent landowners and all types of potential users from bikers to walkers.

emergency response plan Since the abandoned corridor is already being used immediate action should be taken to put in safety signage and structures to minimize injury risk

insurance and liability Liability protection that covers the trail owner (municipalities) and adjacent landowners will be put in place.

cooperation between trail users and adjacent landowners. The trail management plan will provide for effective and close consultation between users and landowners. A step-by-step process will be immediately implemented. Guarantees are impossible—mutual decisions work best!

conflict resolution a simple and effective process will be planned and implemented. This approach has worked in the past and will work in the future.
